

SCHEDULE OF POSTER PRESENTATION

Dear presenters

Please find below list of all Posters selected for presentation at the 9th INCPT, AIIMS, New Delhi.

IMPORTANT INSTRUCTIONS:

1. You are required to mention your poster number at the top right corner of your poster. Your Poster number is same as the serial number against which your details (name and title of poster) are mentioned in the list below. IT MEANS THE SERIAL NUMBER CORRESPONDING TO YOUR NAME IS YOUR POSTER NUMBER. This poster number can be mentioned using a marker pen or any other pen. Alternately, you may write your poster number on a small paper chit and stick it on the poster with the help of board pin.
2. Also mention your ***CONFERENCE REGISTRATION NUMBER*** at the top right corner of the poster either using a pen or paper chit.
3. **POSTER NUMBER 1 to 51 will be presented on 23.12.2023.**
4. **POSTER NUMBER 52-101 will be presented on 24.12.2023.**
5. The actual time of poster presentation in front of the judges will be announced or displayed during the conference on the day of presentation.
6. Even though the organising committee (OC) will provide board pins to stick the poster on the standee/board, presenters are advised to carry extra board pins depending upon the size and weight of their posters. Additionally, presenters must carry their own scissors, double tape etc, if they feel these might be required for putting up the posters. The organising committee will not provide scissors, double tape and other stationery items.

Guidelines for making the poster:

1. The Maximum size is 3 feet by 4 feet. Poster should be made in portrait mode i.e. height should be greater than breadth (width).
2. Both materials i.e. paper or flex are allowed.

LIST OF POSTERS

(POSTER NUMBER 1 to 51 to be presented on 23.12.2023)

S. NO.	NAME	TITLE
1	Adityaa Uttkarshini	Keep your heart at ease
2	Neha Ishwar Pakhale	Knowledge and use of ICF, ICF-CS AND ICF-CY among Indian physiotherapists
3	Khushi Viren Desai	Prevalence and severity of stroke due to Covid-19 : A prevalence study
4	Dhvani J Gandhi	Impact of different workshift patterns on circadian rhythm and quality of life (QOL)
5	Arushi Dighe	Unveiling Physiotherapeutic interventions for swimmers battling with Asthma
6	Laxmi	Effectiveness of foot orthosis for shin splints amongst recreational runners.
7	Panchami Shetty	Effectiveness of breathing techniques in children with asthma: A narrative review
8	Prachi A. Patel	Correlation between screen time, anxiety, stress and physical fitness among paramedical students
9	Manasa Shastri	Impact of work stress and sedentary lifestyle on cardiac health- A narrative review
10	Sripavathi V	Effectiveness of swissball and core stability exercise in individuals with low back pain
11	Shivaranjini P	Physiotherapy intervention for primary dysmenorrhoea
12	Gloriya	Female Athlete triad
13	Alina Shagir K	Role of Hydrotherapy in pregnancy
14	Kshama Poonacha K	Impact of Physiotherapeutic Interventions on Postpartum Depression
15	Sravan Snehan	Physiotherapeutic Intervention for Injuries In Combat Sports Athletes
16	Mayuri Sharma	Impact of MFR therapy to improve gait and function in patient with Parkinson's disorder: A case study
17	Esha Sureshkumar Patel	Prevalence of work-related musculoskeletal disorders in manual fabric stone sticking female workers
18	Dhriti Chopra	Augmenting rehabilitation beyond gravity
19	Himanshi Arora	Neurons firing through gadgets wiring
20	Sudhanshu Sain	A Novel approach for the rehabilitation of post-operative chondrocalcinosis of ankle joint: A case report
21	Darshana Babel	Effect of addition of contralateral Mobilization with Movement (MWM) of Temporomandibular Joint (TMJ) on mouth opening and function in individual diagnosed with TMJ dysfunction: A case study
22	Shaifali Sharma	A study to correlate tightness of hamstring muscle to vocal loading in individuals with long duration sitting

23	Nazia Mazhair	A study to determine immediate effect of deep breathing exercises (DBE) & DBE coupled with breath-holding upto breaking point on cardiopulmonary parameters
24	Rutuja Gavhane	Effect of addition of MWM to Distal Tibiofibular joint with conventional exercise regime on pain and function in patient suffering from Congenital Os Navicularis: A Case Study
25	Anupam Mantri	Significance of biotensegrity in management of musculoskeletal conditions
26	Amisha Dehadraya	Review study of benefits of cervical core for optimal well-being and cervical muscle health
27	Vedika Agarwal	Physiotherapy in aviation: Safeguarding health in the skyways of tomorrow
28	Shatabdi Shree	Effect of class-4 LASER therapy in trochanteric bursitis: A case study
29	Simrath Kaur	Effect of addition of McConnel taping and MWM of glenohumeral joint to the conventional exercise regime on grip strength, shoulder and hand functions in a patient with frozen shoulder: A case study
30	Divya Choudhary	Distinguishing Parsonage-Turner syndrome from cervical radiculopathy in PT practice: A comprehensive narrative review
31	Abinaya S	Study on the prevalence rate of varicose veins among textile workers
32	Gokulakannan P	Effectiveness of breathing exercises in reducing dyspnea and improving exercise tolerance in patients with Interstitial Lung Disease: An experimental study
33	Jayasri D	Improving menstrual health literacy in sports
34	G Subashini	Anxiety level in English speaking among college students
35	Maitri, Prabhleen	Mechanoid Stride: A leap forward in innovation for amputees
36	K Kokila	Brain endurance training and cognitive performance among sports people
37	Patel Aayushi Maheshkumar	Intra-rater and inter-rater reliability of body composition analyzer in young adults aged 18-25 years
38	Mantasha Talat, Arohi Singh	Dancer's Hip or Snapping Hip Syndrome
39	Shubham Kumar, Abhishek Soni	Tennis Leg or torn "monkey muscles"
40	Samreen Khan, Humira Zarin	LMN vs UMN facial palsy
41	Vedanshi Mishra	Revolutionising Rehabilitation: Unveiling the power of robotic therapy for patient well-being
42	Gayatri Yadav, Samiya Khan	Role of exercise in maintaining cardiovascular fitness

43	R P Keshav Kumar	Advanced technological body suits used for rehabilitation
44	Devu J S	Advancement in animal physiotherapy
45	Aakifa Nowreen J	Split belt treadmill training post stroke
46	Atchaya D	Prevalence of pes cavus in bharathnatyam dancers.
47	S Mahalakshmi	Physiotherapy management for fighter pilot navy
48	Roshini S	Impact of particulate matter on health and effects of exercise on cognitive function among people in & around mine industries
49	Keerthivasan D	Effects of full and partial range of motion training in the development of strength in young male individuals
50	Logeshwar K	Effects of High intensity resistance type exercise training program on functional improvement in elderly men and women.
51	Madhumitha M	Cognitive behavioral therapy in treating person with learning disabilities

LIST OF POSTERS

POSTER NUMBER 52-101 to be presented on 24.12.2023

S. NO.	NAME	TITLE
52	Dhanusha V	Innovation and Integration: Shaping the future of global physical therapy
53	Harini R	Revitalizing movement: An exploration of physiotherapy's healing power
54	Mohamed Zimran H	Dynamic movement intervention in children having global developmental delay
55	Swedha Jayashree A	Participation of family in physiotherapy-related tasks of critically ill patients
56	Bala Kumaran C	Causes of death in fit individuals
57	Lokeswar G	Effects of mindful and non-mindful exercise on people with depression: A comparative study
58	John Chakkaravarthi	Effect of brain gym exercise on quality of life and symptoms among elderly with dementia
59	Karvannan A	Prevalence of low back pain among motorcyclists in Pondicherry
60	Tharifa A	Translation, cross-cultural adaptation and validation of the Pulmonary Rehabilitation Adapted Index of Self-efficacy (PRAISE) Scale for Puducherry
61	Pradeep Pillai	Augmented Reality for the treatment of phantom limb pain: Are we there yet?
62	Shapna Sankar	Effect of core exercise with diaphragmatic breathing on respiratory parameters and abdominal strength
63	Arjun Prakash	Effect of inspiratory muscle training on dyspnea in the COPD population: A systematic review
64	Geetika Upadhyay	Association of body mass index with inspiratory muscle strength and physical activity in young collegiate
65	Anuja Pokale	Functional electrical stimulation for gait restoration in patients with SCI: A literature review
66	Anshika Mishra	Virtual reality in cognitive rehabilitation in chronic stroke patients: A review
67	Kunal Singh	Effect of aquatic treadmill training in stroke rehabilitation: A Review
68	Pratham Rao	Virtual Reality-Based Treadmill Training for Balance and Gait in Stroke: A Review
69	Jumana Dewaswala	Beyond Limits: The Latest Innovations Shaping the Future of Stroke Recovery
70	Bhavya Jain	Effect of progressive gaze stabilization exercises combined with habituation exercises in a patient with motion sensitivity: A case study
71	Ankita Tripathi	MET- Comprehensive plan of care in physiotherapy
72	Sampada Sharma	Quality of life following a spinal cord injury: A WHOQOL Assessment Study
73	Aashna Jain, Tanvi Khadoliya	Effect of jaw muscle strengthening exercises on stress urinary incontinence patient

74	Ramanan M, Haripratha S, Priyanka K	Efficacy of stabilizing reveral technique versus gaze stability exercise in older adults with dizziness and balance dysfunction due to vestibular hypofunction
75	Manasa Kolekar	Physiotherapy management strategies for central sensitisation in LBP: A Scoping review
76	Acharya Yashaswi Shankar	Effects of virtual reality-based mirror therapy for upper limb recovery in stroke patients: A Review of Literature
77	Jeekshita Kulal	Impact of Yoga in epileptic patients in managing stress: A literature review
78	Harshitha	Effectiveness of LSVT in parkinson's disease for improving movement -A literature review
79	Molvika Mohan	Advanced gait training strategies for locomotor improvement among individuals with Parkinson's disease:A Scoping review
80	Kajal Kumari	Effect of Cranial base release (CBR) in addition to swallowing exercises in rehabilitation of total thyroidectomy patient- A Case Report
81	Revanth Gowda M C	Association of backpack with postural changes in school going children
82	Deeksha Bindra	DNS: An approach for movement kinesiology
83	Komal U Sawant, Ishi Agarwal, Charvi Hatwal	Psychoactive stimulants: A 'hideous addiction' that gears youth's minds and its association with vital parameters
84	Sonam Kumari	Comparing the effectiveness of active isolated stretching & myofascial release on non-specific neck pain
85	Juhi Singh	Efficacy of advanced neurorehabilitation protocol on pain and quality of life in cervical radiculopathy: A case study
86	Rhea Rajendrakumar Rane	A Comparative Study of Slow and Fast Suryanamaskara on Hamstring Flexibility in College Students
87	Sable Kruti Prakash	Effect of sensorimotor-retraining on neuronal plasticity for low back pain:A literature review.
88	Jignesh Dabhi, Tripti Jain	Effect of visual mental imagery on speed, power & agility in American Football player: A Case Study
89	Hage Minu, Yapop Gongo	Effect of Pressure Biofeedback training on dynamic balance & back extensor endurance in patient underwent lower limb surgery: A Randomised Controlled Trial
90	Tanzila Mulla, Sonia Gupta	Exploring the Impact of Cranial Electrical Stimulation on salivary cortisol levels, EEG frequency along with stress and Anxiety levels: A Case Study
91	Pakhee Shah, Shriti Salvi, Sanyukta Kawtikwar	Prevalence of neck pain due to helmet use among motorcyclists
92	Samridhi Jain	TENS as a non-pharmacological method of pain relief during labour: A systematic review

93	Mansoor Rahman A	Revitalizing Traditional games: Inclusive game adaptations for children with cerebral palsy
94	Mriga Jain	Effect of Structured Exercise Program on Physical Fitness in Adolescents using Wheel Chair
95	Divya Pandey	Unilateral spatial neglect and motor recovery among stroke subjects: A cross-sectional study
96	Prisha Bhagat	Efficacy of core strengthening exercise program in post-partum period: A narrative review
97	Garima Wadhwa	A Systematic Review on the Effect of EMG Biofeedback for gait rehabilitation in individuals with SCI: Unravelling therapeutic potentials
98	Chanchal Jain	Evaluation and intervention for a patient experiencing persistent medial elbow pain with signs of nerve entrapment
99	Tushara Nair	Correlation between spirituality and quality of life in people with musculoskeletal disorders: A cross-sectional study
100	Vysakh M Kumar	Impact of low load resistance training with and without blood flow restriction training on pain, functional disability and grip strength among subjects with tennis elbow
101	Mukul Kumar Sain	Rehabilitation for knee- Post surgical excision of osteosarcoma with ongoing chemotherapy- Case study

Your **Poster number is same as the **serial number** against which your details (name and title of poster) are mentioned in the list*
